Dear Mrs. Margrethe Vestager,

Please find enclosed the speech delivered by Mrs. Conchi Gallego on the second day of the conference "Visions for Europe...." at the Højskolen Østersøen on July 27, 2000.

We allow ourselves to use this opportunity to make you familiar with our vision on working for common European folk high school /community colleges.

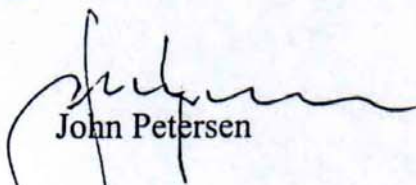

This also has to make more precise the context of the questions of Mr. John Petersen at the conference, which was meant to be understood in a European context.

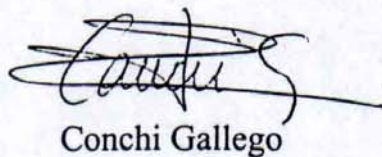

We understood from both you and Mr. Bertel Haarder, that Danish debate in European matters are too often coloured by yesterday's discussions. We believe, that in the case of promoting a system of community colleges in Europe, Danish politicians would have an outstanding opportunity to stress an agenda of tomorrow.

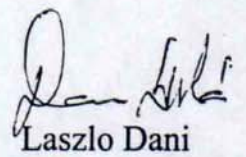

Maybe it could even be an issue, when Denmark takes over the presidency of the European Union.

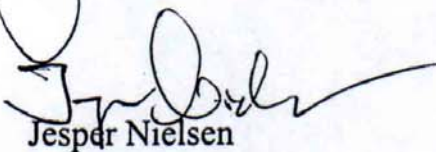

Best regards,

The board:

 John Petersen

 Conchi Gallego
